Dear Puppy Applicant:

Thank you for inquiring about adopting one of Jitterbug's puppies. Each one of these puppies is very special to me, so I intend to be very careful in placing the puppies. Please be patient as I determine both, which puppy is right for you and which home is best for each puppy. Due to the fact that their mother was a rescue, it is important to me that the special needs that could arise for these puppies will be fully understood by the new homes. In short, I want to ensure that these puppies never know the type of life that their mother did at her young age.

These puppies are predominantly terriers, so if you are not very familiar with terrier behavior, I would highly advise you to do some reading and studying up on terriers prior to submitting this application. Definitely be sure that a terrier would be a good fit in your family's lifestyle. They can be tenacious and challenging, but rewarding dogs that I fully recognize aren't right for everyone.

If you are ready to proceed, you may have certain desires about a specific dog you wish to adopt, but each puppy also has different personalities and different needs. My goal is to make the best match possible and to find each puppy the right home. Consequently, I ask you to be as thorough as possible in completing this adoption application. Please also be aware that only under very specialized circumstances will I agree to place one of these dogs in a home with a child under the age of six.

I will require that a binding agreement covering care of the puppy be signed by the person who adopts her. The adoption agreement stipulates that in the event that you should not be able to continue to provide the dog a home, the Puppy must be returned to Stephenie Galvan. I will also require that each puppy be spayed or neutered.

Our adoption process involves the following steps:

1. You complete and submit the adoption application,
2. I will receive and review your application,
3. You and any other adoption candidates meet the Puppies,
4. Pending a successful visit and approval of all paperwork, final adoption papers are signed and,
6. When the puppies are ready to be placed, the puppy will become part of your family.

Due to vet and care expenses, I am requiring an adoption fee of at least \$100.00 at the time of adoption.

Please follow up with me if you become no longer interested in a puppy or if your information changes. Your patience is appreciated.

Thank you for your interest.
